

# Summer Offerings

We are offering options to continue STEM programs!

**Kits!** We provide the materials, you provide glue or tape, and scissors!

Each kit comes with all of the materials students will need, including step-by-step instructions and a link to watch an SDC educator teach the lesson. A live-stream session is available by appointment. Cost: \$125 for up to 25 student kits with instructional video link and live-stream option.

Here are just some examples:

## Achi Game

- Build a game board using geometric shapes
- For grades 1 - 2

## Glider

- Build and fly a great foam core delta wing glider
- For grades 3 - 6

## Puff Mobile

- Build a vehicle powered by your breath
- For grades 3 - 6

## Catapult

- Build a catapult with craft sticks and elastic bands
- For grades 3 - 6

## Static Electricity Butterfly

- Make the butterfly's wings move with static electricity!
- For grades Pre-K - 1

## Straw Bridges

- Make a bridge using simple materials
- For grades 3 - 6

## Science Shows!

Let us bring a one-hour Science Show to a park or large indoor space, with lots of fun science demonstrations.

Cost: \$250

We are available to come to you to do in-person programs, following your requirements for safety!
